All members of AUHS agree to follow the following Principals

AUHS Principles

1. We believe in the infinite intelligence.
2. The Fatherhood of God.
3. The Brotherhood of all life.
4. We affirm that the existence and personal identity of the individual continue beyond the change called death.
5. Each person is personally responsible for all their actions.
6. Eternal Progress is open to every soul.
7. We affirm that communication with the so called dead is a fact scientifically proven by the evidence of spiritualism.
8. We believe that the phenomena of nature, both physical and spiritual, are the expression of infinite intelligence.
9. We accept the examples and parables of Jesus the Christ as standards by which we try to live our lives.
10. We believe in the teachings from spirit as revealed through divine intercession and the ministry of healing.

To the betterment of self

We only evolve spiritually by the gaining of knowledge which in its turn becomes the wisdom of everlasting light.

What is God?

The God Power is a very fine energy source from which all that is was born. The Father God is neither male or female; it simply is a power unto itself. It is by the simplicity of acceptance of its very gentle laws without question that we find we have taken the first faltering steps upon his bridge of light and the closer into its heart we walk the purer our spirit becomes; until it is as transparent as the water or the warm sun through the trees or the most gentle breeze that caresses the leaves and makes them whisper Gods loving secrets into our ever yearning hearts. Walk home with courage my friends and believe in the power of life eternal for as sure as you have taken your first breath on earth so shall you reborn see that place you call heaven. Even if heaven is not an actual place but a feeling; since we have no physical vessel to express what we are; then feelings and sensations are what we truly are.

AUHS Guidelines

We are Christian in Nature

However we do not discriminate against any loving belief or material religion and our Principles are meant to be guidelines which proclaim what we believe to be true in the afterlife and a compassionate way of living on earth.

There is only one real universal law. That of unconditional love. Within which are painted the all colourful rainbow moods which mankind materially understands. It is the spiritual development of mankind that lifts the consciousness above such material things to the understanding of a greater truth. Any material religion can know only part of the whole truth as it is with mans mentality and the universal energies flow through you until your very soul at every moment of your life unto even after your final breath on earth and when you become part of the whole in spirit then much of the knowledge that is hidden from you whilst on earth will be revealed quite naturally.

It does not matter what god you have prayed to on earth. For the one god will be part of you in the universal energies that is truth and light and love eternal.
